

How to... Get a booking confirmation

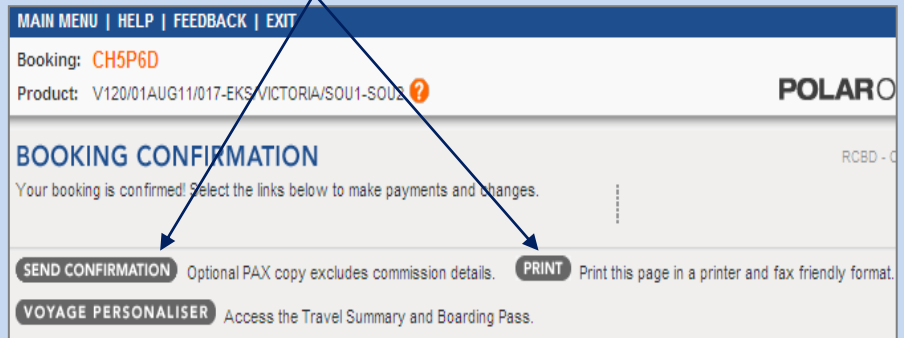

1. Select the brand; P&O Cruises, Princess Cruises or Cunard Line and click Manage Booking.

2. Search for your booking in the way that is easiest for you, depending on the cruise information you have. Then click on the 'Search' button.

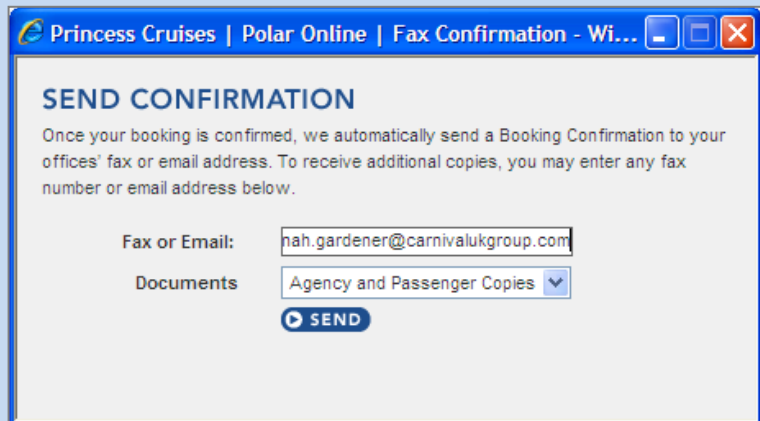

3. Once you have searched for your booking the 'Booking Confirmation' screen will appear. At the top of the screen there will be two buttons you can select to get a confirmation.

4. To print off a confirmation in a printer and fax friendly format, click on the Print button.

5. If you click on the 'Send Confirmation' button you will be asked for an email address. Once you have entered an email address click the 'Send' button.

6. The confirmations will then be emailed to you. **Please note** the email will contain a passenger **and** agency copy. We therefore suggest you only put an agency email in this field and not a passenger's email address.
