

Purchase your Cunard Guest Wi-Fi plan at  
[internet.cunard.com](http://internet.cunard.com)

**Terms and conditions.**

Wi-Fi may be slower at sea when compared to terrestrial connectivity. Geographical location, weather and the number of users using the system can have an impact on connectivity speed.

Stay Connected

## Your online experience.

Stay connected with our satellite internet service at sea during your time on board.

There are two Cunard Wi-Fi internet plans to choose from to suit your online requirements.

These are available on either a 24-hour or full voyage basis.

### Essential\* Internet Plan

Keeping in touch with home.

\$18 Full voyage/per day

OR

\$24 24 Hours

Web browsing + Email + Social media

(Includes text and images. Excludes music and video streaming.)

### Premium\* Internet Plan

Social media with video + Music streaming + Video calling  
+ Faster connection speeds than the Essential Plan

\$24 Full voyage/per day

OR

\$36 24 Hours

### Cunard World Club member benefits.

If you are a Cunard World Club (CWC) member you will receive complimentary internet access, as a benefit of your membership.

Your internet benefit will be automatically credited to your on board account and can be redeemed against your Wi-Fi plans straight away.

#### Gold tier

\$45 internet credit per guest.

#### Platinum tier

\$80 internet credit per guest.

#### Diamond tier

\$135 internet credit per guest.

### How to select your plan:

1. Go to the Wi-Fi settings on your device and select the **Cunard Guest Wi-Fi** option from the list of available networks.

2. Once you're connected, open your internet browser and type **internet.cunard.com** into the address bar.

3. Enter details, including a memorable username and a 4-digit PIN.

4. Simply choose your preferred Wi-Fi plan and begin browsing.

\* Please note the capabilities of your chosen service may vary from day to day. The ship's positioning may affect the strength of satellite signal available to you, so service may be slower at times. Better connectivity can be found within the main public areas of your ship, for example in the bars and lounges.
